### WATER DEPT. TO UNDERTAKE NEW POLICY

At a recent meeting of the Torrance Municipal Water Department, A. E. McVicar pointed out to members of the board, that "In view of the anticipated spread of population to unserved, outlying portions of the city, I feel that necessity has arisen for the formulation of a main extension policy in line with that of other utilities, establishing limits to which main extensions might be made. These extensions would be made at the expense of the Water District and setting up rules for refund to consumers in sections to which consumers would be required to pay for extensions."

Water Board members agreed that this was an important matter to consider and the suggestion was made that McVicar work out a plan for presentation at a later date.
